### 2023 1099 Miscellaneous Forms

ActivHealthCare 1099's are available to pick up on the Provider Portal. You will be able to find your 1099 form under Reporting.

Please review your 1099 carefully. The name on the 1099 should match the name under which you file your federal income taxes. If you use your social security number, the name should match your name as it appears on your social security card. Otherwise, the number will match the name the IRS has on file for your Employer Tax ID number. If the name does not match, please let us know. The IRS may fine us for mismatched names.

The 1099 is a combination of the amount of the payments we issued to you plus the administrative fees that were deducted. The administrative fees will be a business expense, which will reduce your income. The amount of the administrative fees is indicated on each claim we process.

If you need a summary of the fees for 2023, please email [claims@ActivHealthCare.com](mailto:claims@ActivHealthCare.com) or you can contact us using the [Contact Us](#) link on [www.ActivHealthCare.com](http://www.ActivHealthCare.com). We can quickly generate and send you a PDF report to summarize 2023. Your email request should include the doctor's name, Tax ID number and his/her return email address or fax number.
