

New Contract With Peach State Health Plan

ActivHealthCare is completing a contract with Peach State Health Plan to provide network access for patients covered under their Ambetter policies. We are in the final step, which includes passing a credentialing audit. This audit should be complete before Christmas. Once it is finalized, Ambetter will load ActivHealthCare's Participating Providers into their network.

The Term Summary Sheet for this contract will be posted on Activ's Customer Service Center once the contract is fully executed by Peach State Health Plan. Below are the key details of the agreement:

- # of covered lives = Approximately 135,000 in 2017; approximately 300,000 expected in 2018
- Max # of covered visits = 40, subject to medical necessity, like every other company
- Fee schedule = 110% of CMS fee schedule
- Copays & deductibles = Varies based on policy selection by insured

Additional information on Ambetter can be found at their website,

Ambetter is filling the gap left by Aetna, BCBS, and other companies that pulled out of the individual health insurance market. ActivHealthCare will be providing Ambetter policyholders with access to our member chiropractors. We are also contracting for the Medicare products they offer.

Ambetter is rapidly expanding into a statewide insurance carrier. They have requested that all of our Providers participate, even if you are not located in one of the counties they list on their website.

If you wish to be a part of this product, you will need to "Opt In". Do this by completing the Participating Provider Enrollment Form, which can be accessed through the following link:

Please fax your form back to 470-514-3697 as soon as possible. We cannot add you to Ambetter without the completed "Opt In" form.
